

# Hard Hats / Safety Helmets

## 1. TUFF Hard Hat

Available in various colours

New design setting the standards for comfort, style & versatility. The standard of the TUFF helmet takes style & comfort to a new level.

A low profile shell, along with a new design & suspension system, provides maximum comfort with a look that workers prefer.

The shell is made with durable injection moulded high-density polyethylene.

TUFF helmets are designed with accessory slots to accommodate many add-on features.

Novel design, comfortable wearing & elegant appearance characterise the safety helmets.

These helmets are widely used in construction, electric power, metallurgy and many other industries.
